FABRIC & CONSTRUCTION

The 3130 is made from 271 GSM (8.0oz) 80/20 cotton-polyester french terry. Unlike standard fleece, french terry features a flat terry interior rather than a brushed nap, giving the garment lighter drape and better breathability without sacrificing the 8oz weight decorators need. The cotton-dominant blend provides a smooth exterior face for printing, and the hood is fully lined with a heavy drawstring cord. Spandex-reinforced ribbing at the armholes and hem ensures clean edges that hold shape, while double-needle stitching secures all seams. The front pouch pocket adds function and a familiar hoodie silhouette. The casual fit allows comfortable movement for athletic use cases, and the tear-away label supports private-label programs. Washing and drying decorated garments the right way extends garment life.

DECORATION

METHOD	RATING	NOTES
Screen Printing	Excellent	Smooth face, strong ink adhesion
DTG	Good	Front and back panels print cleanly
Embroidery	Fair	Use stabilizer. Avoid high-count designs on terry knit
Heat Transfer / HTV	Good	Standard press temps. Test adhesion on terry side
Sublimation	Muted vintage effect	Muted vintage effect only on this 80/20 cotton-poly blend. Full vibrancy requires 100 percent polyester, which Three Layer does not stock.

SIZE CHART

inches, measured flat

SIZE	CHEST	BODY LENGTH
